# Why Is Elaine Schwartz Standing With Developers As Opposed To Siding With Us?

The Hollywood City Commission led by Mara Guilianti recently voted to seize property using the law of eminent domain. Land grabs like this make every one of our properties potential targets for eminent domain abuse. City government takes our property and hands it over to their developer/contributors to build condos or high rises – a great deal for them, and we have no say.

Now we find out that Mara Guilianti is a strong ally of Elaine Schwartz along with one of the biggest developers in town. Can we really expect Schwartz to stand up to them?

## Schwartz Won't Take A Stand Against Eminent Domain

Schwartz and Palamara got into a heated back and forth about the use of eminent domain.

Now we find out that Mara Guilianti is closely tied to Elaine Schwartz and one of the biggest developers in town is a contributor to Schwartz' campaign.

"I think there are obvious differences in how we would do things..." said Schwartz.

(6/19/06 HERALD)

So far all signs point to more eminent domain abuse and more threats to our homes.
